- Elementor Page Builder

EDUCATION

Front End Tech Degree
Team Treehouse
Remote | 2020

Ancient History
Royal Holloway: University of London
Surrey, UK | 2013

PROFILE

An ambitious web developer, with a passion for creating clean, responsive and user-friendly websites. Along with my professional experience, I have developed a cryptocurrency tracking application, a quiz application and several other demo sites, all of which are viewable on my portfolio page. I now hope to join an exciting team where I can contribute to projects for clients, whilst continuing to broaden my programming knowledge.

EXPERIENCE

JUNIOR DEVELOPER

DIRECT BUSINESS SOLUTIONS | REMOTE | APR 2021 - JAN 2022

- Utilised 'Vue.JS' and 'Vuetify' to develop a scheduling application, with built-in reminders, timers, and notifications. This product was then used by the entire sales team to assist with the business' daily sales operation
- Linked the above scheduling application to 'Microsoft Outlook' and 'Microsoft Todo' through the use of an API
- Implemented a service worker in order for the sales team to use the above application offline
- Discussed with other members of the team how best to utilise UX and UI features for the staff website
- Edited staff website based on the developed designs
- Created editable data tables, with information drawn from back end databases, utilising both PostgreSQL and VueJS
- Completed various ad hoc coding tasks, including database management fixes, editing web page styling, and re-working programming functions
- Utilised the 'liveshare' feature on 'Visual Studio Code' in order to edit code with other team members
- Installed and updated needed dependencies, using both 'Node Package Manager' and 'Yarn'
- Engaged in code reviews with other members of the team

FREELANCE WORK

REMOTE | JUN 2020 - PRESENT

- Using JavaScript, developed a minimum viable product for an information security policy website
- Created a photography website using 'Wordpress,' the Divi theme and the Elementor page builder
- Liaised with customers about design aspects and provided suggestions based on their requirements
- Edited sites accordingly based on client feedback

JOSEPH JOHNSON

WEB DEVELOPER

EXPERIENCE (CONTINUED)

PERSONAL WEB DEVELOPMENT PROJECTS

REMOTE | JUN 2020 - PRESENT

- Built a cryptocurrency tracking webpage using multiple API's, ReactJS and Chart.js
- Created an online quiz application, using JavaScript programming, with multiple questions and categories for the viewer to choose from
- Developed a Star Wars Themed portfolio page for Darth Vader, based on designs found online
- Utilised 'Bootstrap' to create a landing page for an imitation tour company
- Developed a landing page for a "cliche" business company
- Built a mock employee directory, using JSON and an API
- Developed a mock web application dashboard utilising different interactive jQuery charts
- Built a JavaScript focused 'Star Wars' game based on the TV show, 'Wheel of Fortune'
- Used the SASS preprocessor, to develop a mock web style guide, which could then be used to help style projects
- Developed and created an online personal portfolio page using HTML & CSS, JavaScript, and the CSS framework 'Bootstrap', to host all of the above projects
- Completed the Team Treehouse 'Front End Web Development Techdegree' whilst receiving the highest marks of 'Exceeds Expectations' for every project

ONLINE ENGLISH TEACHER

ITUTORGROUP | REMOTE | AUG 2018 - APR 2020

- Provided Online English classes to Chinese and Japanese adult students
- Received an average rating of 9.8/10 across 1000+ teaching hours

OPERATIONS ADMINISTRATOR

CAMBRIDGE ASSESSMENT | CAMBRIDGE, UK | FEB 2018 - AUG 2018

- Assisted with the worldwide operational running of the IELTS language examination
- Worked closely with all levels of the IELTS hierarchy including students, test centres, assessment teams, and directors

ENGLISH TEACHER

AFFILIATED SCHOOLS OF THE BEIJING UNIVERSITY OF CHEMICAL TECHNOLOGY | BEIJING, CHINA | FEB 2016 - JUL 2017

- Prepared and delivered English lessons to around 900 Chinese students aged 7-16
- Created bespoke lessons for each class and provided monthly reports for each student
